

Wipers

fit with confidence!

There is an ACDelco Wiper Product for most makes and models on the road. Once you experience the quality, effectiveness and ease of installation, ACDelco will become your brand of choice for automotive wiper products. The ACDelco range includes beam blade wiper assemblies as well as traditional wiper blade assemblies and refills.

BEAM BLADE WIPER ASSEMBLIES

Features & Benefits

- / Advanced rubber technology providing longer life cycle.
- / Wiping surface is graphite coated to reduce friction and minimize chattering and noise.
- / Hi tech design reduces wind lift at high speed.
- / Better performance than conventional blades in cold zones.
- / Even pressure on windscreen when compared to conventional wiper assemblies.
- / Replaceable refill.
- / Reduced streaking.
- / Integrated symmetric spoiler.
- / ACDelco Beam Blades can be used to update most vehicles fitted with traditional wiper assemblies.
- / Slim line design to suit modern vehicles.
- / Assemblies are tested for 480 hours in a heated salt water spray chamber for durability and corrosion.
- / Exposed components are subjected to an ozone resistance test and snow block test to ensure beam blades are suitable for the extremes of Australia's harsh conditions.
- / Multi fit - easy installation.
- / A reduction in the number of moving components.

TRADITIONAL WIPER BLADE ASSEMBLIES

Features & Benefits

- / OEM genuine quality.
- / Durability tested in weather conditions from -40°C to +80°C.
- / Wiper blades have an all metal structure and are aerodynamically designed to have an anti-lift effect at high speeds.
- / Wiper blades and refills are tested for 480 hours in snow, ice, dry and water spray. (Continuous 1.5 million cycles under wet conditions (water spray: 2.0L/ min)).
- / Wiper blade assembly frame is made from galvanized steel and are acrylic coated for anti corrosion. In addition, stainless steel rivets/pins are used to enhance durability.
- / The wiper blade spacer is designed to minimize friction among parts to improve wiping quality and reduce noise.
- / The wiper blade vertebra is assembled with stainless steel springs which distribute uniform pressure to the rubber to improve wiping quality.
- / Wiper blades come with multiple adapters to match most vehicle arm types for easy installation.
