### 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

Ingredients	Name	CAS	Proportion
	Highly refined Paraffinic Oil	64742-65-0	>30-60 %
	Paraffin Wax	8002-74-2	>30-60 %

---

### 4. FIRST AID MEASURES

---

<b>Inhalation</b>	Not a route of entry in normal use. However, in the event of a fire or if the product is heated beyond its melting point, fumes may be generated and inhaled. In such an event move victim to fresh air. Seek medical advice if adverse symptoms, such as coughing, breathing difficulties or burning sensations in the respiratory tract develop.
<b>Ingestion</b>	If swallowed induce vomiting. Rinse mouth thoroughly with water. Give one glass of water or milk. If symptoms develop seek medical advice.
<b>Skin</b>	Wash affected areas with copious quantities of water and soap. Seek medical advice if skin irritation develops.
<b>Eye</b>	If in eyes, irrigate immediately with copious amounts of water for 15 minutes with eyelids held open. If symptoms persist seek medical advice.
<b>First Aid Facilities</b>	Have eyewashes and washroom facilities available where contact can occur.
<b>Advice to Doctor</b>	Treat symptomatically.

---

### 5. FIRE FIGHTING MEASURES

---

<b>Suitable Extinguishing Media</b>	This product is a combustible solid. Extinguish fire using water fog, foam, dry chemical or carbon dioxide.
<b>Hazards from Combustion Products</b>	Carbon dioxide, carbon monoxide, wax fumes and smoke.
<b>Precautions in connection with Fire</b>	In a general fire keep product cool with water spray. When fighting fire wear full protective equipment and breathing apparatus. Move product from fire area if it can be done without risk.

---

---

## 6. ACCIDENTAL RELEASE MEASURES

---

**Emergency Procedures** EMERGENCY PROCEDURES: Isolate hazard area and deny entry. Put up signs warning of a slip hazard in the contaminated area.

**Clean-up Methods - Small Spillages** Pick up or sweep up the product and its fragments. Wash contaminated area with a detergent based floor cleaner.

**Clean-up Methods - Large Spillages** Wearing safety glasses, overalls and gumboots sweep up all solids using a stiff broom and place contaminated material in suitably labelled, disposable containers. If necessary scrape up the remainder of the product using a suitable non-sparking tool. Scrub, with the aid of a stiff broom, water and detergent the contaminated area and absorb the cleaning liquid with a suitable absorbent. Place the absorbed material in suitably labelled, disposable containers.

---

## 7. HANDLING AND STORAGE

---

**Precautions for Safe Handling** Practice sound industrial hygiene. Take steps to minimise eye and skin contact. Wash hands before work breaks. Keep away from food.

**Conditions for Safe Storage** Store in a cool dry place and out of direct sunlight. Store away from heat and ignition sources. Do not store with strong oxidants.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

**National Exposure Standards** An exposure limit for this product has not been set by NOHSC, nor would one be appropriate under normal conditions of use. However if a significant amount of this material was held in a molten state wax fumes would be emitted. An exposure value for wax fumes has been set by NOHSC and is given below.

Exposure standard [NOHSC: 1003(1995)]: TWA  
Wax fumes 2 mg/m<sup>3</sup>

**Biological Limit Values** Not applicable.

**Engineering Controls** Use only in well ventilated areas.

**Personal Protective Equipment** Protective equipment that minimises contact with the product is all that is required under condition of ordinary use. When working in confined areas, ensure good general ventilation.

---

## 9. PHYSICAL AND CHEMICAL PROPERTIES

---

<b>Appearance</b>	Soft solid, candle like stick
<b>Odour</b>	Faint characteristic odour
<b>Melting Point</b>	Not established
<b>Freezing Point</b>	Not established
<b>Boiling Point</b>	Not established
<b>Solubility in Water</b>	Insoluble
<b>Specific Gravity</b>	Ca. 0.88
<b>pH Value</b>	Not applicable
<b>Vapour Pressure</b>	Not established
<b>Vapour Density (Air=1)</b>	Not established
<b>Flash Point</b>	>200°C

---

## 10. STABILITY AND REACTIVITY

---

<b>Chemical Stability</b>	This material is stable under normal ambient and anticipated storage and handling conditions.
<b>Conditions to Avoid</b>	Avoid excessive temperatures and contact with incompatible materials.
<b>Incompatible Materials</b>	Strong oxidising agents.
<b>Hazardous Decomposition Products</b>	One component of this product will produce wax fumes when heated. The product will produce oxides of carbon when on fire.
<b>Hazardous Reactions</b>	Will react with strong oxidation agents to produce heat.
<b>Hazardous Polymerization</b>	Hazardous polymerisation will not occur.

---

## 11. TOXICOLOGICAL INFORMATION

---

<b>Toxicology Information</b>	This mixture has not been tested for its health effects as a whole. The components of the mixture have been classified as not hazardous to NOHSC criteria.
<b>Inhalation</b>	An unlikely route of entry. Inhalations of high concentrations of vapour from product heated beyond its

melting point may irritate the nose and throat.

**Ingestion** Ingestion of small amounts may cause abdominal discomfort. Ingestion of large quantities may cause irritation of the gastrointestinal tract, nausea and vomiting.

**Skin** May be mildly irritant to some sensitive individuals.

**Eye** Mildly irritant to eyes. May cause stinging, reddening of the eyes and lachrymation.

**Carcinogenicity** The components of this product have not been listed as carcinogen by NTP, IARC or OSHA, No data on other chronic health effects.

---

## 12. ECOLOGICAL INFORMATION

---

**Ecotoxicity** No data available.

**Persistence /  
Degradability** No data available.

**Mobility** No data available.

---

## 13. DISPOSAL CONSIDERATIONS

---

**Disposal  
Considerations** This product is an industrial waste and may only be disposed of in accordance with applicable State and local regulations. These regulations vary from jurisdiction to jurisdiction and hence the user is advised to seek advice from the local authority before considering disposal. The disposal information given below is a general guide and does not replace the requirement of the local regulations.

**Waste Disposal** Small quantities may be disposed of as non-hazardous waste. Large amounts may be considered for landfill.

**Other  
Information** SPECIAL PRECAUTIONS: No special precautions for landfill or incineration.

---

## 14. TRANSPORT INFORMATION

---

**Transport  
Information** This product has not been classified as Dangerous Goods. This product does not need to be transported in accordance with the ADG Code requirements.

IMG/IMO Code: Unrestricted  
ICAO/IATA Code: Unrestricted

---

## 15. REGULATORY INFORMATION

---

**Poisons** Not Scheduled

**Schedule**

**AICS**

**(Australia)** All ingredients are listed in AICS

---

16. OTHER INFORMATION

---

<b>User Codes</b>	<b><u>User Title Label</u></b>	<b><u>User Code</u></b>
	Approval Number	4988
	Part Number	HN2137
	Part Number	M33028

**User Information** THE PRINTED FORM OF THIS MSDS IS CONSIDERED AN 'UNCONTROLLED' DOCUMENT ONE WEEK FROM THE PRINT DATE.

**Other Information** Issue Number: 02  
Changes made to the previous issue: None

ACRONYMS:  
ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail  
AIDC: Australian Inventory of Chemical Substances  
CAS Number: Chemical Abstracts Service Registry Number  
DG: Dangerous Goods  
Hazchem Code: An emergency action code of numbers and letters, which gives information to emergency services  
IARC: International Agency for Research on Cancer  
IATA: International Air Transport Association  
ICAO: International Civil Aviation Organisation  
IMDG: International Maritime Dangerous Goods Code  
IMO: International Maritime Organisation  
N.O.S.: Not otherwise specified  
NOHSC: National Health and Safety Commission  
R-Phrases: Risk Phrases  
S-Phrases: Safety Phrases  
SUDP: Standard for the Uniform Scheduling of Drugs and Poisons  
UN Number: United Nations Number
